

3. The Board is authorized by Iowa Code § 542B.24 to seek an injunction in district court enjoining any person who is not legally authorized to practice professional engineering in Iowa from engaging in such practice or advertising the availability of such services to the public. As of July 1, 1996, the Board is also authorized to impose a civil penalty upon nonlicensees for the same violations, pursuant to Iowa Code section 542B.27 (1997).

4. The Board's consultant has concluded Mr. Derr performed professional engineering services. Respondent incorporated this work into a plan Respondent certified and sealed. While Respondent is free to collaborate with other licensed professionals, with each licensed professional certifying that professional's own work product, Respondent should not facilitate the unlicensed practice of professional engineering in Iowa.

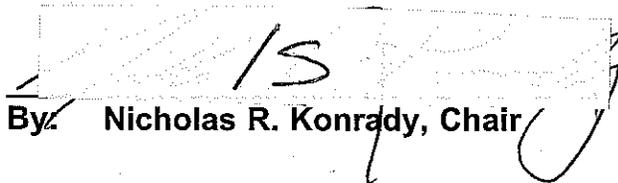

5. The Board and Respondent have agreed to informally resolve the pending dispute. In the event this Stipulation is violated, it may be used as evidence against the party violating the agreement, although all parties understand that violations must be enforced by filing a petition in district court seeking an injunction, or imposing civil penalties through administrative procedures.

6. Respondent agrees it will not in the future facilitate the unlicensed practice of professional engineering in Iowa. Respondent understands the Board is authorized to commence an administrative proceeding for the aiding and abetting of the unlicensed practice of professional engineering in Iowa, pursuant to Iowa Code section 542B.27.

7. This Stipulation is a public record pursuant to Iowa Code chapter 22 and will be provided to the National Council of Examiners for Engineering and Surveying.

AGREED AND ACCEPTED:

**The Iowa Engineering and Land
Surveying Examining Board**

By: **Nicholas R. Konrady, Chair**
